

# Digital Infinity™ Series

## Auto-Darkening Welding Helmets

**Welding Safety and Health** 

### Quick Specs

**Viewing Area**  
86.45 sq. cm (13.4 sq. in.)

**Operating Modes**  
Weld, cut, grind and X-Mode™

**Shades**  
Weld: 8–13  
Cut: 5–8

**Sensors** 4

**TIG Rating** 5 amps and below

**Switching Speed** 1/20,000 sec.

**Weight** 652 g (23 oz.)

**NEW!**

**Optional helmet lighting accessory kit** includes two lights (one for each side) and all required mounting hardware.

**Largest viewing area in the industry.** 86.45-sq.-cm viewing area with wide screen format provides unsurpassed view and eliminates tunnel vision.

**ClearLight™ Lens Technology** optimizes contrast and clarity in welding and light states. 1/1/1/2 optical clarity rating allows for a lighter light state while not welding — keeping the helmet down — maximizing safety and productivity.

**Four arc sensors and four modes:** weld, cut, grind and X-Mode. X-Mode prevents sunlight from darkening the lens before welding starts and low-amperage lens opening from obstructed sensors.

**Headgear with oversized comfort cushion** provides extensive adjustability, settings, and improved support for better fit and comfort.

**Features InfoTrack™ advanced lens technology:**

- Tracks and displays arc time
- Allows operator to set time, alarm, and timer
- Provides multi-language help menu

**Digital controls** easily allow welder to adjust shade, delay, and sensitivity.

**Meets ANSI Z87.1+, CSA and CE standards.**

Auto-darkening lens is warranted for three years.
