

PSW3

Portable spot welder used for the welding of thermocouple wires, fixing pins for heating elements and isolating material.

DIMENSIONS:

Width 110 mm

Length 220 mm

Total height 150mm

Weight:

2,6 kg

Included in the supply:

- Shockproof nylon case
- Magnet and pliers cables
- Battery charger

MAIN CHARACTERISTICS:

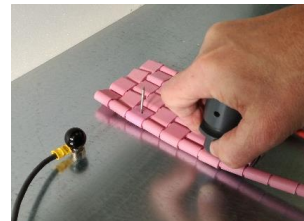

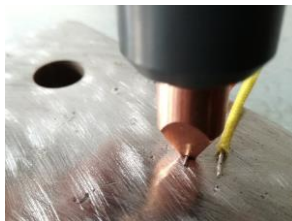

- Shockproof nylon case with cable holder bags
- Waist belt fastener
- External power supply 100 – 260VAC 50-60Hz 0,35A Max
- Accumulator Lithium/Ioni 14,8V 2,6A/h
- Possibility to weld wires with diam. from 0,5 to 1mm
- Possibility to weld pins with diam. 2,6mm (or diam. 2mm to be specified during PO confirmation)
- Automatic/manual selector
- Dial indicator: accumulator charge status, welding discharge power, capacitor pre-charging phase and welding hold
- Protection degree IP54
- In compliance with ASME VIII DIV. 1 UW-37
- Quantity of welds: over 2000 welds
- Recharge time: 8 hours

“PSW3 is provided with an innovative welding system which allows a better and easier means to fix thermocouples without damaging the base material
